## FIFTEEN BURNED

### IN A MONTREAL CONVENT.

The Destroys the Convent of St. Anne at St. Genevieve—List of the Dead and Injured.

**Bulletin Special.**  
Montreal, Que., April 21st.—Fifty are dead and five injured as the result of a fire which destroyed the convent of the Sisters of St. Anne at St. Genevieve. The dead include Sister Marie Adolphe, Carmelite Dugas 13 years, of St. Genevieve; Louise Dugas, 16 years; Marie Therese, 17, St. Genevieve; Marie Louise, 15, St. Genevieve; Marie Louise, 12, St. Genevieve; Marie Louise, 11, St. Genevieve; Marie Louise, 10, St. Genevieve; Marie Louise, 9, St. Genevieve; Marie Louise, 8, St. Genevieve; Marie Louise, 7, St. Genevieve; Marie Louise, 6, St. Genevieve; Marie Louise, 5, St. Genevieve; Marie Louise, 4, St. Genevieve; Marie Louise, 3, St. Genevieve; Marie Louise, 2, St. Genevieve; Marie Louise, 1, St. Genevieve.

The origin of the fire which brought such sorrow is unknown and could only be told by lips now sealed in death. Sister Marie Adrienne, superior, confessed her utter ignorance of the cause nor could any of the sisters reveal anything that would throw light on the mystery. Madame Lavigne, one of the five old ladies who resided upon the bounty of the good sisters was the only one alive yesterday and she told an incoherent story that old Madame Potvin had arisen from bed in search of a pipe and tobacco and then threw away the match she had used. The sisters think the story improbable. One of the older sisters was the first to notice that there was something wrong. About 11 o'clock she noticed that the room was heavy with smoke. When she reached the hallway she was met by a volume of smoke. Her cries awakened the others and presently all in the building were aroused. The sleeping quarters were divided, some down stairs and others located on the upper floor the convent being three stories in height. These on the lower floor attempted to ascend the stairs to the floor above but were met by a rush of smoke. Sister Marie De Jesus spread the alarm calling upon the pupils in the upper dormitories to arise and went among the beds saying "Children get up and dress quickly. There is a fire in the house. This sister then warned the pupils in other dormitories and the realizing danger that confronted the children hastened to send them down stairs. By this time thick streams of choking smoke poured from below rendering the passage very hazardous. Some ran down stairs, others went half way and then retreated. The sister went part way down stairs and then turned back to the second floor. Here she found her retreat cut off. Making her way to one of the windows she found one of the pupils, Miss Palment breaking the glass, the only chance that remained and jumped to the ground. Sister de Jesus broke a window and was bruised and shaken. Miss Palment escaped without serious injury. In the upper floor there remained Sister Marie Adrienne with her pupils whose lives were sacrificed in the holocaust.

## NEUTRALITY QUESTION

### MAY LEAD TO TROUBLE.

Foreign Minister Delcasse has Resigned.—Britain may Register a Protest against Breach of the Rules.

**Bulletin Special.**  
Paris, April 22nd.—Foreign Minister Delcasse after a noble service of eight years has resigned his portfolio. It is said, on account of controversies regarding the acute phase of the far eastern question. France wishes her ally had sent the fleet of steamers away and does not wish a row with Japan and England. Germany it is said is hating for. If the Russian squadrons have not already left France-Chinese waters for Vladivostok, notice has been sent them to vacate immediately.

**BRITAIN MAY OBJECT**  
London, April 22nd.—There are grave rumors that England is sending a note to the alleged infringement of neutrality laws in the matter of the sheltering of Russian fleet in France ports.

## WANTED.

GOOD AGENTS FOR THE

Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

## STONY PLAIN AND SPRUCE GROVE.

The campaign meetings in the forests of Mr. Oliver's candidature at Stony Plain Centre and Spruce Grove on Wednesday afternoon and evening last were an unqualified success. Although it was in the midst of a busy season and the notice was short, there was a good turnout at Stony Plain Centre school house at 3 p.m., not only from Stony Plain Centre but also from Rosenthal and Marden districts. J. S. McDonald, the promoter of the settlement, was voted to the chair. The meeting was addressed by Messrs. J. S. Turfitt, M. P., for East Assiniboia, the candidate, Mr. Oliver, and Messrs. M. McCauley, ex-M.L.A., C. W. Cross. In a short address Mr. M. McKinlay, of the district, voiced the unanimous endorsement of the people of Stony Plain of the appointment of Mr. Oliver as Minister of Interior. Other districts might make more showy demonstrations with flags, torches and brass bands but the feeling of the heart that caused the ballot to be marked in the right place on polling day was not stronger anywhere than at Stony Plain. The Plain had endorsed Mr. Oliver in the past; it was proud of him and if the occasion arose, would give him a stronger endorsement than ever.

The meeting closed with a unanimous expression of confidence in Mr. Oliver.

At Spruce Grove, where the evening meeting was held, the hall was crowded. J. A. McPherson, the promoter of that settlement, was voted to the chair. In a short address he spoke in complimentary terms of Mr. Oliver and of the ride felt by himself and the people of the district generally in his advancement. Addresses were delivered by Messrs. Turfitt, Oliver, McCauley and Cross on behalf of Mr. Oliver's candidature. Mr. Oliver went fully into the autonomy question in its financial and educational features. The chairman asked for questions or remarks by members of the audience. W. H. Tristram, in allusion to the question frequently asked: Why was it necessary to define by clause 16 of the autonomy bills the educational rights of minorities under section 93 of the British North America Act, asked if there was a fact that because of a lack of proper interpretation of a certain section in the C. P. R. charter that company had received 40 years tax exemption on their land grant when the intent of parliament was to allow only twenty years' exemption?

Mr. Oliver replied that the fact was exactly as Mr. Tristram had stated. Parliament had given the company twenty years' exemption and by the interpretation of the courts the twenty had become forty. In view of this remarkable and notorious decision of the courts in a matter so important and so intimately affecting the North-West, it did not appear to be the part of wisdom to trust the state control of our existing and satisfactory school system to a decision of the courts under section 93 of the British North America Act.

John Mackinlay was called upon and said that as a conservative he had opposed Mr. Oliver at the last general election and would probably do so again at the next. But in the case of the present bye-election, he was in favor of strengthening the new situation, in whom he had the utmost confidence, by giving him the unanimous support of the constituency. Mr. McKinlay's remarks were received with every demonstration of approval. Messrs. S. J. Echeles, Dan Brox, G. J. Welbourn and J. J. Schellert unreservedly endorsed Mr. Oliver's candidature. After a vote of thanks to the chairman and a short closing speech by him, the meeting closed with cheers for Oliver.

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily a "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—its smoking quality—fragrance and pungent deliciousness is conserved to the smoker intact.

## THE CAPITAL QUESTION.

The secretary of the Board of Trade writes the Bulletin—

In a recent issue, the Calgary Herald consoled itself with the reflection that, now that Mr. Oliver is Minister of the Interior, instead of simply member for Edmonton, his well known spirit of fairness, and the sense of his responsibility, not to his constituents alone, but to the whole country, would prevent the Minister of the Interior using his influence in favor of Edmonton as the seat of government of the new province.

This is no doubt an accurate statement of the Minister's position, but the Herald's deduction that he will necessarily throw the weight of his influence in with Calgary hardly seems to follow. Nor is the reason quite plain for the Herald's assumption that "any eminently fair man must concede Calgary's claim as the logical seat of government." There are no statistics available as to population; but as Alberta is essentially an agricultural community, the agricultural statistics may be taken as a fair criterion as to the population and commercial importance of the different sections of the country. It is true, there is a small industrial population; but the extensive lumbering industry in the North, in conjunction with the coal industry, which is only beginning to be extensively developed, can be considered to offset the larger coal industry in the South.

An examination of the statistics recently issued by the Department of Agriculture at Regina in regard to

the crop of 1904, reveals the following somewhat interesting facts:—

Taking Red Deer as the dividing line, the areas under crop to the various grains were as follows:

N. of Red Deer	S. of Red Deer
Wheat ... 31,305 acres	15,589 acres
Oats ... 124,991 acres	53,013 acres
Barley ... 45,931 acres	15,063 acres
Flax ... 284 acres	93 acres
Speltz ... 96 acres	16 acres

Total 201,587 acres 84,371 acres

These figures of course, refer only to the territory at present comprised within the boundaries of Alberta. The preponderance of the North will of course be much accentuated when the new territory to be included in the new province, is added. The total area of the new province will be 273,494 square miles, of which only 61,560 will lie south of the line drawn through Red Deer.

Considering that for some twenty-two years the southern country has had the main line of the C. P. R., and for many years has had railway facilities of a most ample nature, it is rather remarkable, and to a thoughtful mind, significant, that more progress has not been made by our southern friends. If the southern section of Alberta, with everything in its favor, has not been able to keep pace with the Edmonton section while the latter had very meagre shipping facilities or none at all, it is scarcely conceivable that the northern district can maintain even its present relative position after the Edmonton district is opened up by the two great transcontinental railways now heading this way, one of which will be running trains into Edmonton within the next few months.

## The Spring Months

are a severe strain even upon the most robust constitutions. People seem to have gotten into the habit of dosing themselves with tonics, instead of going to the root of the matter and relieving the conditions which cause the trouble.

# Abbey's

## Effervescent Salt

brings immediate relief from that feeling of lassitude. It gives healthy action to the bowels without astringent after-effects, and vitalizes the system. A teaspoonful in a glass of water every morning makes you feel like a new person.

## DIED UNDER CHLOROFORM

Calgary Herald: Mrs. J. G. Van Wart died last night while under the influence of chloroform. The drug was administered for the purpose of reducing a dislocation of the elbow. Last October the arm was injured, and since that time had been operated on once to remove a difficulty arising from the initial setting, but without success. Mrs. Van Wart, with courage greatly in excess of her physical strength, insisted on a third operation, and last night about 6 o'clock chloroform was administered at the family residence, Centre street and Fourth avenue. A few minutes later it was found the patient was unable to stand the strain and every effort was made to save her life. The best endeavors were unavailing and death ensued in some fifteen minutes.

## KILLED BY A ROCK.

A. F. Dutton, a farmer who lived a couple of miles from Slavey, met death in a somewhat peculiar manner on Monday. A large rock weighing about a ton, impeded his work in one of his fields and he decided to dig a hole and let the rock fall into it. On Monday last he went out to dig the hole and as he did not return at supper time, his daughter, who was keeping house for him, went to search for him and was horrified to find the rock had fallen and crushed him to death. Her cries attracted the neighbors who lived near and many willing hands soon removed the stone. It was found that both legs and arms and his spine had been broken. There was little disfigurement, but the body had been crushed into the earth. The deceased was a widower about 49 years of age.

The boundaries of a claim may be

defined absolutely by having a survey

made, and publishing notice in the

Yukon Official Gazette.

Hydraulic Mining, Yukon Territory

—Locations suitable for hydraulic

mining, having a frontage of from

one to five miles, and a depth of one

mile or more, may be leased for twenty

years, provided the ground has been

prospected by the applicant or his

agent; is found to be unsuitable

for placer mining, and does not

include within its boundaries any

mining claims already granted. A

rental of \$150 for each mile of frontage

and royalty at the rate of two

and one-half per cent. of the value

of the gold shipped from the Territory

are charged. Operations must be

commenced within one year from the

date of the lease, and not less

than \$5,000 must be expended annually.

The lease includes all base

metals, quartz and coal, and

provides for the withdrawal of unopened

land for agricultural and building

purposes.

Petroleum—All unappropriated

Dominion lands in Manitoba, the North-

West Territories and within the Yukon

Territory, are open to prospecting

for petroleum, and the Minister

may reserve for an individual or

company having machinery on the

land to be prospecting, an area of 640

acres. Should the prospector discover

oil in paying quantities, and

satisfactorily establish such discovery

an area not exceeding 640 acres, in-

cluding the oil well and such other

land as may be determined, will be

sold to the discoverer at the rate of

\$100 an acre, subject to royalty at

such rate as may be specified by or-
